Beautiful ANDERSON and HATFIELD MEDIA #8, about 400 in all, must be moved this fall; \$1.50 each, 10 or more. You dig them.

If you wish to pick up plants, please write or 'phone in advance. Often we can not dig for drive in. We are closed Saturdays and Sundays.

THE E. J. SNYDERS STORY

(To this date)

By 1929 our perennial business was profitably established, but when the big crash came it was obvious we had a poor location for success in a depression. We started a systematic search for an ideal location, soil, water, sand, market, transportation. Here at West Milton we started anew in 1932. In each of the 27 years since, our appreciation of the unique merits of this place has grown.

About 8 years ago we began a great search for the ideal retirement location-for us. The usual places were visited first, then Ohio and Indiana got a lot of attention. In Lebanon, O., 29 miles north of Cincinnati, we believe we have found the ideal place, nearly 10 acres, high on a valley rim, magnificent sunset view over rich rolling farmlands, woods, cloud shadows, blue haze.

Our nursery is for sale-\$40,000, liberal terms, know-how included. Beautiful Cape Cod residence(1940), greenhouses, necessary buildings. More than ten acres on main highway, 1000 ft. from Milton corp. line.

This November we are moving into our new home in Lebanon, O. You are cordially invited to visit us there(we may grow a few plants). Drive to the end of South Broadway, then into the McBURNEY HILLS plat, bear right at top of hill. Just ahead and up, white shingled hilltop house, built by hard work, ours and yours. THANK YOU.
